#### 4. FIRST-AID MEASURES

<b>General Advice:</b>	Fabrication may produce dust particles, which may be an irritant.
<b>If Inhaled:</b>	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing is irregular, provide artificial respiration or oxygen by trained professional. Get medical attention if adverse health effects persist or are severe.
<b>In Case of Skin Contact:</b>	Take off contaminated clothing. Immediately wash with plenty of soap and water. If skin irritation occurs: get medical advice/attention. Wash clothing before reuse.
<b>In Case of Eye Contact:</b>	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if symptoms persist.
<b>If Swallowed:</b>	Rinse out mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical attention immediately.

<b>Special Protective Equipment for Fire Fighters:</b>	Fire-fighters should wear NIOSH-approved positive pressure, self-contained breathing apparatus (SCBA) and full protective gear. Avoid fire-fighting from downwind. Cool containers with water spray. Provide adequate ventilation. Prevent fire extinguishing water from contaminating surface water or the ground water system.	
<b>Hazardous Combustion Products:</b>	Combustion products may include: carbon dioxide, carbon monoxide, nitrogen oxides, hydrogen cyanide, and other organic compounds.	

#### 6. ACCIDENTAL RELEASE MEASURES

<b>Personal Precautions:</b>	Wear personal protective equipment (see section 8). Remove all sources of ignition. Avoid contact with skin and eyes. Avoid breathing dust/mist. Ensure adequate ventilation.
<b>Environmental Precautions:</b>	Prevent leakage into the sewer, drainage system or soil. Avoid release to environment. Inform the relevant authorities if the product has caused environmental pollution.
<b>Methods and Materials for Containment and Cleaning Up:</b>	Sweep or shovel into the appropriate container for disposal. Cloth gloves are not recommended as they may accumulate debris. Prevent airborne dust.

#### 7. HANDLING AND STORAGE

<b>Precautions for Safe Handling:</b>	Wear protective equipment (See section 8).
<b>Conditions for Safe Storage:</b>	Store in a cool, dry and well-ventilated area. Keep away from Ultraviolet light.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with Workplace Controls Parameters: Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits. Provide eyewash stations.

Nuisance Dust*	NA	5 mg/m <sup>3</sup> (resp.)	10 mg/m <sup>3</sup> (inhalable)

\*A limit of 2 fibers/cm<sup>3</sup> is recommended by DuPont, a manufacturer of aramid fibers.

### Personal Protective Equipment:

Respiratory Protection:	In case of inadequate ventilation wear respiratory protection. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Hand Protection:	Wear resistant gloves to prevent cutting or mechanical irritation. Rubber or vinyl preferred. Cotton gloves tend to accumulate dust and debris and are not suitable.
Eye Protection:	Safety glasses with side shields (ANSI Z87 recommended). Do not wear contact lenses.
Skin and Body Protection:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Hygiene Measures:	Handle in accordance with good industrial hygiene and safety practices. Do not eat, drink or smoke when using this product.
